

Universal Benefit and Budgeting Calculator

Our Universal Benefit and Budgeting Calculator is fast, accurate and simple to use.

It is outcome focused, streamlining the calculation of benefit eligibility, including Universal Credit and showing people how much better off in work they could be.

Advisors don't need to be experts to understand and explain the welfare system and what the changes will mean.

We communicate using colour and simple visuals, focusing on outcomes, not the process.

What Universal Benefit and Budgeting Calculator can do for you

- Help clients manage their spending with the Budgeting Calculator
- Find job vacancies with built-in Universal Job Match
- Show and store 'better off in work' calculations for smarter case management
- Use offline on a tablet or smartphone, as well as on a computer
- Integrate with your CMS for single sign-on
- Customise the interface with own branding and hidden/revealed features
- Include multiple jobs, free school meals and extra costs of work

Frontline advisors can:

- Have conversations about action plans rather than data entry
- Explain complex changes using visuals and colour
- Refer to the built-in help tips and live chat functionality, using information they can trust
- Help people make decisions that are right for them

We believe change happens on the frontline

We're a business with a social purpose. Our mission is to reduce poverty which we work towards by making the welfare system easy for people to understand, so they can make decisions that are right for them.

Policy in Practice was founded by Deven Ghelani, one of the architects of Universal Credit, to communicate information to people on the frontline in a fast, user friendly way.

"The software is user friendly with lots of intuitive features so an advisor doesn't have to be a benefits expert. It's also UC compatible. Any software is only as good as its implementation and the support we've had from the team to bed in the new service has been a massive benefit."

Jemma Johnstone, Serco

"The Universal Benefit and Budgeting Calculator is different. Its outcome-based approach has been very powerful and has really helped us to change behaviour of both our residents and advisors."

Inga Spencer, LB Hillingdon

Partnership

Our software is always accurate and up to date. Our local authority, housing associations and employment services clients all benefit from the continuous updates, flexibility and responsiveness of our team.
